Development of Passengernumbers

BRA ties together Sweden.

- BRA is flying to most places by all domestic airlines.
- Connects Sweden via 13 locations.
- Sweden is Europe's 5th largest country to the surface.
- This has become an important cog in the country's public transport

Biojetfuel in Halmstad.

- Halmstad City Airport is the first airport in the country that has a continuous involvement of biofuel.
- Thanks to a unique collaboration between the airport, BRA and Air BP, there is today a product on the market where everyone who wants to, can buy biofuel and compensate their flight.

BRA wins the Grand Travel Award Sustainability Prize.
